

THE PRACTICAL LOCAL HOME GUIDE

Kudasan. A family-first plan.

Home, kitchen, bathroom, carpentry and plumbing. One clearer renovation plan.

AI illustration. Natural home inspiration; not an actual project in this location.

KEEP / PLAN / CHECK

Plan family routines, compare repair and replacement choices, and check your Kudasan renovation quote across all five services.

8 pages. Free to read, save and share.

01 / START WITH YOUR HOME

Your local plan.

For your Kudasan home, begin with the spaces that do the most work: cooking, family meals, storage and getting ready each morning. If you will stay at home during the renovation, decide which rooms must remain usable before choosing finishes.

- 01 Agree which kitchen or bathroom stays usable during work**
- 02 Keep sound cabinets and furniture where they still fit**
- 03 Coordinate repairs before paint, flooring and new storage**
- 04 Confirm society access, lift protection and debris arrangements**

Before the visit

Share your Kudasan society or street, building, floor and access details. For apartment work, check the building's permitted work hours and common-area protection before arranging a visit. Availability and timing are confirmed for your address.

02 / HOME RENOVATION.

Home renovation.

Plan living-room, bedroom, flooring and wall-finish improvements as one clear scope. A phased makeover can keep family routines manageable.

What may stay

A sound dining table, usable flooring or a good room layout can stay. Spend first on the problems that affect everyday comfort.

Put this in the scope

List the rooms, furniture to protect, work hours and cleaning between stages. Ask who coordinates civil work, carpentry and plumbing.

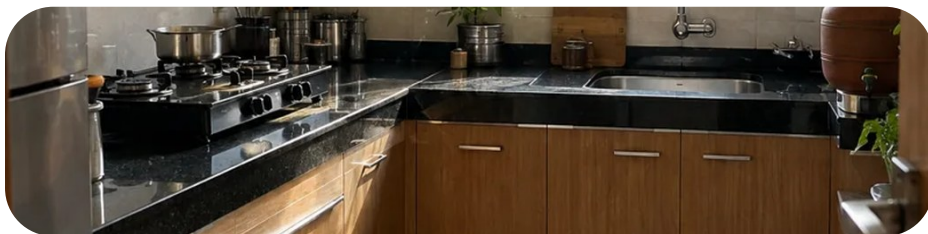

EXAMPLE / ONE ROOM AT A TIME

If the family stays home, compare a living-room phase with a whole-home scope. Include protection, cleaning and a usable route in both quotes.

03 / KITCHEN RENOVATION.

Kitchen renovation.

AI illustration. A planning idea, not a completed local project.

Review preparation space, cabinets, countertop condition and sink fittings. Keep daily cooking needs visible when comparing layouts.

What may stay

If the layout and cabinet bodies work, compare a door-and-hardware refresh with full replacement before deciding.

Put this in the scope

Record appliance sizes and which cooking arrangements will be available while the kitchen is being worked on. Ask about sink refitting and waste connections.

04 / BATHROOM RENOVATION.

Bathroom renovation.

AI illustration. A planning idea, not a completed local project.

Discuss worn tiles, leaking fittings, drainage and vanity storage. Plan the order of work around the bathroom your family needs to use.

What may stay

Sound fittings may be reusable after inspection. Agree any concealed plumbing or waterproofing work separately from visible finishes.

Put this in the scope

Describe when a leak appears, photograph nearby damp patches and ask how the repair will be checked before closing surfaces.

05 / CARPENTRY & WARDROBES.

Carpentry & wardrobes.

Make room for everyday clothes, books, school items and household storage. Discuss new wardrobes, study desks, cabinet repairs or door alignment.

What may stay

Repairing hinges, runners or one damaged panel may be enough if the rest of the piece is sound.

Put this in the scope

Measure the usable wall, door swing, bed clearance and switches. Ask for board grade, thickness, finish and hardware in the quote.

MAKE STORAGE FIT THE ROUTINE

List school items, daily clothes and occasional storage separately. A reachable shelf may help more than an extra overhead cabinet.

06 / PLUMBING REPAIRS.

Plumbing repairs.

Arrange assessment of leaking taps, sink connections, basin fittings and toilet repairs. Coordinate water repairs before new cabinet or tile work.

What may stay

Ask whether a replaceable seal or fitting can solve the issue before replacing an entire assembly.

Put this in the scope

Send the leak location and timing. For suspected shared pipes, involve the building team; do not assume every leak belongs to the flat.

PLAN BOTH TRADES TOGETHER

For a leaking sink beside a weak cabinet base, agree who reconnects the sink and who checks the new panel. A neat finish alone does not prove the leak is fixed.

07 / QUOTE, SAVE & SHARE

Quote. Save. Share.

Compare the same complete job

Ask for measured work, material specifications, labour, removal, delivery, cleanup, taxes and payment stages. Agree the cost and time of changes first.

Renovation estimates are free. Standalone carpentry or plumbing visits are ₹100, waived when you opt for the service. Labour and materials are agreed separately.
