THE WARDROBE BOARD CHOICE GUIDE

Behind the colour. A better choice.

Choose materials for the way you use your storage.

AI illustration. Inspiration, not a completed project.

TWO CHOICES / ONE CLEAR QUOTE

Compare the whole wardrobe: boards, finish, fittings and work. Includes two home examples and a note to use with your carpenter.

7 pages. Free to save and share. Checked 5 November 2026.

01 / START WITH THE ROOM

Dry room first. Board choice next.

A new wardrobe should not hide an active damp patch.

IF THE WALL IS DAMP

Pause fitting. Find and fix the cause. Ask the team to check the area before covering it. A different board is not a leak repair.

Two named product examples

Greenpanel Interior MDF is for dry interiors, not damp or high-humidity places. CenturyPly Sainik MR is listed for furniture with limited moisture exposure.

Ask for the exact product

MR means moisture resistant. Ask for the brand, range, grade and written use limits. Do not apply one product claim to every MDF or plywood board.

These are manufacturer examples, not endorsements. Check current product instructions for your room.

02 / TWO CHOICE EXAMPLES

Same room. Two choices.

Planning examples only. Not reports of our projects.

AI illustration. Samples explain the build; bills verify supply.

A / PLAIN LAMINATED STORAGE

A family stores heavy bedding. Ask for a board and shelf-support plan. Compare the same finish, fittings and layout.

B / A PAINTED, GROOVED FRONT

Ask about suitable MDF doors and a separate box specification. Check both faces, edge finish and the hinge plan.

03 / THE QUOTE GAP TEST

A low total? Check what is missing.

Do this before comparing the final fitted prices.

EXAMPLE / TWO INCOMPLETE OFFERS

Quote A omits the back and drawer bases. Quote B omits carrying and fitting. Ask for the missing items before comparing totals.

Ask both teams for the same list

Keep the size, inside layout, finish and hardware fixed. Add the missing work and taxes where due. Then compare full fitted totals, not a sheet rate and a furniture rate.

If the budget is still too high

Ask for the saving from fewer drawers or a simpler finish. Keep the support and fitting plan clear. Do not accept an unnamed replacement board to cut the price.

Gota shop visit? Confirm the item and delivery. A listing is not proof of stock or price.

04 / COPY INTO YOUR PHONE NOTES

Named parts. No hidden swaps.

Keep this with the agreed drawing.

Main box and shelves

Product / grade / thickness: ____
Shelf support and stored items: ____

Doors, drawers and back

Board and thickness for each: ____
Finish on faces and edges: ____

Fittings and full price

Hinge / channel model: ____
Delivery, carrying, fitting, tax: ____

Supply and handover

Sheet markings / bill checked: ____
Care, warranty, repair contact: ____

05 / FROM SHEETS TO HANDOVER

Check the supply. Try the doors.

Keep the material choice linked to the finished item.

AI illustration. Check movement and finished edges.

Before cutting

Match sheet markings and bills to the agreed list. A colour swatch alone cannot confirm the hidden board. Agree any replacement before it is used.

AT HANDOVER

Open each door and drawer. Check visible edges and agreed shelf supports. List any small fixes with a date. Keep product care notes and the repair contact.
